Coffee Bean Factory will change the way you look at fundraising forever!

Last year a girl came to my door and sold me a \$20 box of gourmet cookies. As I was shutting the door the girl and her dad stood in my front yard waving goodbye saying "Thank You"!

You know what? Those cookies were very good and I would have bought more boxes! My wife asked me why I did not buy several boxes to give away at Christmas.

I'm sure I was not the only one that wanted more cookies!

Lost sale after sale after sale, who knows how many sales were lost?

Every year there are millions of dollars of lost fundraising revenue because there is no system in place for reorders.

You do all that hard work organizing a fundraiser just to get one order from each customer, why?

With us, "lost sales" or "one shot deals" will become a thing of the past!

Coffee Bean Factory has the product and the system:

The product: one of the most consumed products in the world. If you want to earn residual income on reorders, you would not want any other product.

The system: your very own personalized e-commerce retail website store, so your customers can reorder from you over and over 24/7 365 days a year?

With Coffee Bean Factory, you are not just starting another fund-raiser; you are building a coffee fundraising business!

It gets even better; when others see what you are doing they will want to start their own coffee fundraiser.

At the bottom of your coffee website there will be a coded referral form.

When someone signs up for more information from your website and starts their own fundraiser, your group will earn a 10% referral reward, when they place their first packaged order!

There are three ways to earn money:

1. Up to 50% net profit from direct sales
2. 10% commission on all internet sales
3. 10% referral rewards.
